

I. PURPOSE

These Comprehensive Financial Management Policies are the tools used to ensure that the City of Amity is financially able to meet its current and future service needs. The policies contained herein set a basis for both the financial planning, reporting and internal financial management of the City.

Municipal resources must be wisely used to ensure adequate funding for the services, operations, public facilities, and infrastructure necessary to meet immediate and long-term needs of the City. These policies safeguard the fiscal stability required to achieve the City Council's objectives and ensure the long-term financial health of the City.

These policies are adopted by City Council as the basic framework for overall financial management of the City, to guide day-to-day and long-range fiscal planning and decision making, and to achieve the following general financial goals.

1. Provide an adequate financial base to sustain a sufficient level of municipal services to maintain the social well-being and physical conditions of the City.
2. Deliver cost effective and efficient services to citizens.
3. Provide and maintain essential services, public facilities, utilities, and capital equipment.
4. Provide the financial stability needed to navigate through economic downturns, adjust to changes in the service requirements of the community and respond to other changes as they affect the city's residents.
5. Protect and enhance the City's credit rating so as to obtain the lowest cost of borrowing and also to assure taxpayers and the financial community that the City is well managed and financially sound.
6. Adhere to the highest standards of financial management and reporting practices as set by the Government Finance Officers Association, the Governmental Accounting Standards Board and other professional standards.
7. Fully comply with finance related legal mandates, laws and regulations including Oregon Revised Statutes and Oregon Budget Law.

To achieve these goals, fiscal policies generally cover areas of revenue management, operating and capital budgeting, financial planning and forecasting, investment and asset management, debt management, accounting and financial reporting, reserves and internal controls. These policies shall be reviewed every year as part of the annual budget preparation process.

II. OBJECTIVES

1. To guide the City Council and management policy decisions that has significant fiscal impact.

2. To employ balanced revenue policies that provides adequate funding for services and service levels.
3. To maintain appropriate financial capacity for present and future needs.
4. To maintain sufficient reserves so as to maintain services levels during periods of economic downturn.
5. To promote sound financial management by providing accurate and timely information on the City's financial condition.
6. To ensure the legal use of financial resources through an effective system of internal controls.
7. To protect the City's credit rating and provide for adequate resources to meet the provisions of the City's debt obligation on all municipal debt.
8. To promote cooperation and coordination with other governments and the private sector in financing and delivery of services.

III. MANAGEMENT OF FISCAL POLICY

The City Administrator is responsible for overseeing the management of the City's fiscal policies and monitor compliance. If the City Administrator discovers a material variation from policy, the City Administrator shall report it in writing to the City Council in a timely manner. The report will explain the impact of the material variation on the City's operations, service levels and/or finances and substantive impact of all recommendations to changes in fiscal policy.

As a part of the City's annual budget document, the City Administrator's budget message will identify (a) all major changes in policy since the previous budget year and (b) any material variations from policy in the ensuing year's budget. Fiscal policies and changes in policies will be approved by the City Council and adopted by resolution.

IV. ACCOUNTING, AUDITING, AND FINANCIAL REPORTING POLICY

The City will maintain accounting practices in accordance with state and federal law and regulations, and financial reporting that conforms to Generally Accepted Accounting Principles (GAAP). Provide for, prepare and present regular reports that analyze and evaluate the City's financial performance and economic condition.

1. Accounting Practices and Principles

The City will maintain accounting practices in accordance with state and federal law and regulations, and annual financial reporting that conforms to GAAP as set forth by the Governmental Accounting Standards Board (GASB), the authoritative standard setting body for units of local government. The City's monthly financial reports will be reported on the budgetary basis. At year-end, the general ledger and financials will be adjusted to GAAP, and the annual financial reports and continuing disclosure statements will meet these standards.

2. A system of internal controls and procedures will be maintained to provide reasonable assurance of the safeguarding of assets and proper recording of financial transactions and compliance with applicable laws and regulations. When staffing limitations require it, staff duties will be assigned to maximize a system of financial checks and balances.
3. Annual Audit
 - a. Pursuant to state law, the City will have an annual financial and compliance audit, and prepare financial statements based on the audited financial information. The audit will be performed by a certified public accounting (CPA) firm, licensed to practice as Municipal Auditors in the State of Oregon. The annual financial report, including the auditor's opinion and specific reports as required by Oregon state regulations, will be filed no later than six (6) months following the end of the fiscal year and will be presented to the City Council in that same time frame. The audit firm will also provide a Single Audit of Federal and State grants, when necessary. The City Administrator will be responsible for establishing a process to ensure timely resolution of audit recommendations, if any.
 - b. As required by the Securities and Exchange Commission (SEC) Rule 15c2-12, when the City issues bonds with a principal amount greater than \$1 million, the City will provide certain annual financial information to the Municipal Securities Rulemaking Board (MSRB). This will include any periodic materials event notices as required by the MSRB or SEC. This requirement allows investors to have current information about issuers in order to decide whether to hold, sell or buy securities on the secondary market.
4. Financial and Management Reporting
 - a. Monthly financial reports will be provided to the City Council, the City Administrator and department heads. These reports will include department revenues and expenditures actual to date with comparison to the budget. These reports will be distributed within thirty working days of the end of each month.
 - b. A goal of the City is to eventually prepare a comprehensive annual financial report subjected to independent audit and prepared in a format that conforms to the standards of the Government Finance Officers Association *Certificate of Achievement for Excellence in Financial Reporting*. The report shall be shared with the City Administrator, City Council, Budget Committee and the Secretary of State. In accordance with state law the report shall be distributed no later than December 31st of the following fiscal year.

V. REVENUE POLICY

1. The City will estimate its annual revenues by an objective, analytical process. Because most revenues are sensitive to conditions outside the City's control, estimates will be conservative.
2. The City should take advantage of every revenue-generating opportunity authorized by Oregon Revised Statutes and the Oregon Constitution.

3. The City shall pursue an aggressive policy of collecting delinquent accounts, including the use of collection agencies as authorized by the City Council.
4. Charges provided utility services will be sufficient to finance all operating, capital outlay and debt service expenses including operating contingency and reserve requirements. Rates will be adjusted as needed to account for major changes in consumption, capital improvements and cost increases.
5. System development charges will be established to pay for new capacity in infrastructure systems such as street, water, sewer, parks and storm water facilities.
6. User fees and charges will be established for services provided that benefit specific individuals or organizations. User fees and charges will be set at a level sufficient to recover the full cost of service whenever practical to minimize subsidization by taxpayers. The City will systematically review user fees and charges to take into account the effects of additional service costs and inflation.
7. The City will maintain a current schedule of fees which will be reviewed annually and adopted by resolution.

VI. EXPENDITURE POLICY

Expenditures will be controlled through appropriate internal controls, procedures, and regular monitoring of monthly budget reports. Management must ensure expenditures comply with the legally adopted budget. Each department head will be responsible for the administration of their department program budget. This includes accomplishing the goals and objectives incorporated into the budget and monitoring each department program budget for compliance with spending limitations.

1. The City Council will approve the budget by fund at the category or program level. Expenditures anticipated to be in excess of these levels require approval of the City Council resolution (i.e. supplemental budget process).
2. The City will follow the employee compensation practices that are consistent with the City's adopted Personnel Handbook and approved collective bargaining agreements.
3. The operation of City utilities and streets and City property maintenance must have adequate funds to procure needed supplies and parts.
4. The City will maintain a purchasing ordinance for public procurements and improvements and set expenditure authorization levels for City staff.
5. All expenditure invoices must be reviewed and approved by the City Administrator, and/or the appropriate department head before going to the City Council for review. Two signatures are required on City checks if an amount that exceeds \$999.99.

6. The City will make every effort to control expenditures to ensure City services and programs provided to its citizens and taxpayers are cost effective and efficient.
7. Items costing \$5,000 or more, per item, will be budgeted and accounted as capital outlay and shall be tracked in the City's fixed assets records. Significant repair or maintenance that extends the useful life of existing assets will be included here provided the dollar threshold is met. The \$5,000 limit will apply to individual items unless a group of items are intended to function together as a unified system.

VII. OPERATING BUDGET POLICY

The City will prepare an annual budget with the participation of all City departments. All budgetary procedures will conform to existing state and local regulations. Oregon Budget Law requires each local government to prepare a balanced budget and Oregon Administrative Rules state: 1) the budget must be constructed in such a manner that the total resources in a fund equal the total of expenditures and requirements for that fund and 2) the total of all resources of the budget must equal the total of all expenditures and all requirements.

1. A Budget Committee will be appointed in conformance with the City Charter and state statutes. The Budget Committee's chief purpose is to review the City Administrator's proposed budget and recommend a budget and tax levy for the City Council to adopt.
2. The City budget will support City Council goals and priorities and long-range needs of the City.
3. The City budget process will incorporate the proposed Capital Improvement Plan for the upcoming fiscal year.
4. Multi-year projections will be prepared in conjunction with the proposed budget to determine if adjustments in expenditures or revenues are needed.
5. The City will manage each fund as an independent entity in accordance with applicable statutes and with generally accepted accounting principles.
6. The City will allocate direct and administrative costs to each fund based upon the cost of providing these services.
7. The City will take immediate corrective action if at any time during the fiscal year financial monitoring indicates that an operating fund's anticipated expenditure are expected to exceed its anticipated revenues.
8. The use of fund balance, which is a one-time revenue source, may be used to fund an annual operating deficit only with approval of a plan to replenish the fund balance if its brought down below policy level (See Reserve Policy).

9. The City will work towards the goal of preparing a budget document which complies with the standards necessary to obtain the *Award for Distinguished Budget Presentation* from the Government Finance Officers Association (GFOA).

VIII. LONG-RANGE FINANCIAL PLANNING POLICY

The City will prepare a long-term financial plan to promote responsible planning for the use of its resources. The long-term financial plan will protect revenues, expenditures and reserve balances for the next five years. The analysis will incorporate the City's approved Capital Improvement Plan.

Long-term projections of revenues and expenditures will be realistic, conservative and based on best practices established by the Government Finance Officers Association.

IX. DEBT MANAGEMENT POLICY

1. Capital projects, financed through the issuance of bonds or other notes, will be financed for a period not to exceed the useful life of the project.
2. The City will use the most prudent methods of acquiring capital outlay items, including the use of lease-purchase agreements.
3. The City will not use long-term debt to fund current operations, to balance the budget or to fund projects that can be funded from current resources.
4. All bond issuances and promissory notes will be authorized by resolution of the City Council.
5. The City will comply with all statutory debt limitations imposed by the Oregon Revised Statutes and the City Charter.
6. The City will maintain its bond rating at the highest level fiscally prudent, so that future borrowing costs are minimized and access to the credit market is preserved.
7. The City will obtain and maintain a good credit rating.

X. RESERVE AND CONTINGENCY POLICY

Reserves and contingencies are an important indicator of the City's financial position and its ability to withstand adverse events. Maintaining reserves and contingencies are a prudent management practice. The following are examples of their use:

Operating Contingency – A budgetary account used to appropriate resources that can be used to address events or services needs that were unanticipated during budget development.

Capital Asset Reserve – A reserve established to accumulate resources that will be used to replace capital assets and to provide for major customer service enhancements, where procurement will be budgeted in a future year. The City will maintain equipment and infrastructure capital reserves sufficient to replace assets at the end of their useful lives.

Debt Service Reserve – A reserve established as a requirement of a bond covenant, or covenant in another debt instrument.

The City will maintain sufficient contingency and reserves in each fund to be able to:

1. Mitigate short-term volatility in revenue.
2. Absorb unanticipated operating needs that arise during the fiscal year but were not anticipated during the budget process.
3. Sustain City services in the event of an emergency.
4. Meet operating cash flow requirements before the collection of property taxes, grant proceeds and other operating revenues.
5. Meet major facility and equipment repair and maintain needs.
6. Meet future capital projects needs so as to minimize future debt obligations and burden on future citizens.

The City will maintain a contingency of no less than fifteen percent (15%) of total operating expenses for the General Fund and no less than fifteen percent (15%) of total operating expenses for the other operational (Sewer, Street, and Water) funds.

In the event that reserves and contingencies decrease to levels below the levels established by this policy, the City will develop a plan to restore reserves and contingencies to the required levels.

XI. INVESTMENTS

All City funds shall be invested to provide safety of principal and a sufficient level to meet cash flow needs. One hundred percent of all idle cash will be continuously invested in the Local Government Investment Pool maintained by the State Treasurer.
